

SONG CONTEST 2019. OUR LAND OF PEACE.

Emma sends a message out into the world.

Just as in the drawing, her land of peace looks like. She is almost five years old and she knows exactly where God and the angels live, high up in the heaven. Emma is representative of the **1.8 billion** children on earth. We adults are solely responsible for them.

The song is a cry for help to the future of our children and a warning against nuclear weapons.

Our Land of Peace was written by the little indie blues band IN Songmaker.

The song supports the nationwide peace campaign 2019 „**Büchel ist überall! atomwaffenfrei.jetzt**“, which works in cooperation with the international ICAN network. This peace campaign was awarded the **Nobel Peace Prize 2017** and the **Oberhausen Church Prize 2018**.

It was long time ago _ the mountains will be testify.
High up in the _ wilderness at the _ end of the world.
Where never has before _ any humans had been there.
Where bears and wolves and _ eagles are _ still at home.

One day all the gods of this _ world they met here.
They discussed _ what should be _ happen to us now.
From a stone flowed blood _ a thousand sins or more.
Clear pure water _ on its way to the _ valley down.

OUR LAND OF _ PEACE.

Two golden mugs _ with blood and water filled.
Two messengers _ on the journey to the _ Human's Land.
The blood of children _ which reminds of guilt and sin.
The water that came _ out from the _ earth deep down.

The gods they called them _ Ibrahim and Abraham.
They moved with the _ embassy into the _ distant land.
The blood as a last remind _ the water as a gift.
One last appeal _ children they are _ innocent.

OUR LAND OF _ PEACE.
